MEMORANDUM FOR: ERAC Members

SUBJECT : Unusual Signal Detection

25X1A

25X1A 1. Attached is a copy of an informal report prepared by [redacted] in which consideration has been given to techniques, volume and weight problems associated with detection of unusual ELINT signals. These 25X1A thoughts by [redacted] have been directed toward utilization in [redacted] 25X1D 25X1D and will be discussed in ERAC at a future meeting.

25X1A 2. [redacted] is eminently qualified in the ELINT receiver field and is currently engaged in study and in development under U.S. Air Force 25X1A contracts which should provide prototype models of equipment performing the functions described. [redacted] has indicated that he would be able to provide without cost some workable models of these devices for our test.

25X1A
[redacted]
ELINT Staff Officer
